Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1	A quality controlling manager at a food processing unit	Ensure only fresh fruits and vegetables are packed and distributed	Manually checking everything is time consuming, error prone and inconsistent	Human inspections vary fatigue and lighting conditions and cannot scale efficiently	Frustrated and concerned about food safety, wastage and customer satisfaction
PS-2	A supermarket inventory manager	Quickly remove spoiled product from the shelf to maintain hygiene	Detecting spoiled ones from large stock is inefficient	Spoilage can go unnoticed until customer trust and product arise	Stressed and under pressure to ensure customer complaints or health risks arise
